Chairman Speaks

MMM International School was started with a mission to bring top quality education. We have developed into top class institution. With the growth in human knowledge and experience, the nature of education has changed leading to the evolutions of newer and effective methods of teaching. In the more recent past, there have been improvements in the techniques and tools used to impart school education. At MM International School, we embrace this change and take the initiative to bring these newer and effective methods and technologies to provide the best-in-class education. We have been a model school to take these bold steps forward and will continue to have provision of quality education as our top priority. With my humble beginnings there are many things that I was not fortunate enough to experience as a child/student. But today, I am able to live my dreams through the children of our school. I wish that MM International School continues this progress and provides top quality education for all.

Students saluted our National Heroes on 'Kargil Victory Day'

Kargil Victory Day was celebrated by teachers and students in the School on Tuesday, 26th July 2016. Youth and students should draw inspiration from soldiers of the Indian Army who laid down their lives in the Kargil war in 1999 while safeguarding the country. School Director, Sudhanshu Gupta said, "One should be proud of being an Indian and imbibe discipline and patriotism."

"Leaders should shed their selfish interests and pay attention to developmental programmes", he suggested.

The Investiture ceremony denotes investment in being leaders and the trust and confidence we repose in newly invested office bearers for the involvement of the student's community in day to day functioning of the school, since we believe in child centric approach.
