Academic Director Speaks

MM International School aims to provide holistic development of the students starting from class Nursery to class VIII, in a stress free environment. MMIS sets highest standards of excellence in academic achievement, intellectual growth, leadership qualities and sportsman spirit. Our program is designed to facilitate these attributes in MMISians. Every effort is made to bring the true potential of the students and shape them into multifaceted individuals.

"Take up one idea, make that one idea your life; think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success"

- Swami Vivekananda

The potential unleashed from an idea could open many vistas of a new world and that is important for the growth and progress of any society or nation at large. MMIS has a dream to bring this inevitable change and be instrumental in moulding the personalities of children - the future youth, with a futuristic vision and goals.

- Mrs. Swapna Gupta

How to Memorize anything

EXAMS are coming up. Some say if you can't understand, just memorize. And to memorize, try the "stacking" method:

1. First, use a pencil or word processor (I prefer the latter because it's faster) to type, in complete sentences, any fact you think might appear on the test. Use short sentences because they're easier to remember. Take your printed notes into a quiet room, shut the door, and eliminate all distractions.
2. Look at the first sentence in your notes and read it out loud. Then, close your eyes and say the sentence without looking at it.
3. Repeat the step above, this time with the first 2 sentences.
4. Next, try it with 3 sentences. Then 4.
5. Repeat until you have memorized every sentence in your notes.

Today I am concerned that I am a girl. Who is a girl? A girl is creation of God from whom springs new life and the generations to come. A girl child is one who should be saved for the future. Today girls are walking one step ahead of boys. Child marriage destroys this beautiful life and with it one other life springing forth from that marriage.

PLEASE SAVE GIRL CHILD

Today, people think that only boys are the ones who can do something for their family. But they are forgetting the wonderful girl child who grows into Jhansi ki Rani and fought

against the British. Kalpana Chawla who was the first woman to go to the moon. In our society men believe that woman is the dust of man's foot, forgetting that same man is alive because of a girl child who grows into a woman. Only women have power to take or give life. Suffering through great pain for nine months to give birth to new life.

I'M PERFECT

I don't know my name
I don't play by the rules of the game
Any your say
You are my best friend and we get along quite nicely.
You ask me why I try and changed myself completely.
I'm lost
Trying to get found
In oceans of people.

I don't know my name
I don't play by the rules of the game.
I'm just trying, just trying.
I now know my name.
I don't play by the rules of the game
So you say
I'm just trying, just trying
To find myself.
